# Delivering Quality, Value & Service

For over 30 years, MK Battery has stood for quality, value and service. Our nationwide distribution network provides local delivery/regional shipping and free spent battery pickup and recycling (to customers where available), ensuring fresh local inventory delivered on time and when you need it. Depend on MK Battery.

## Online E-Store Ordering

Our complete line of replacement batteries are available to order online via our E-Store. Orders can be placed online by registering to use the MK Battery E-Store at [www.mkbattery.com](http://www.mkbattery.com). Authorized customers can place orders 24 hours a day / 7 days a week, receive immediate email order confirmation, track shipments/deliveries and view ordering history online. All emergency lighting batteries can be purchased from the Electronic/Security Category.

## RECYCLING

## Battery Recycling

Battery disposal can be a costly and time consuming process. MK Battery recognizes that regulatory concerns impact the life chain of a battery and that facilities are vulnerable to some liability if batteries are not disposed of correctly and legally. All spent batteries picked up by MK trucks are delivered to E.P.A. – permitted smelters and licensed recyclers exclusively. Spent battery pickup and recycling is a FREE SERVICE to establishments located within our route delivery service areas.
